SYED SALMAN ALI

CMS & FULL STACK DEVELOPER

Karachi, Pakistan | +92 307 9283471 | syedmsalman101@gmail.com

PROFESSIONAL SUMMARY

CMS & Full Stack Developer with 3 years of professional web development experience and 50+ web/CMS projects across ecommerce, business websites, custom functionality and application interfaces. Hands-on experience with Shopify/Liquid, WordPress, WooCommerce, Elementor and ACF, combined with modern frontend development using React, Next.js and TypeScript. Experienced in merchant-editable storefronts, responsive implementation, payment/API integrations, client communication, QA, debugging, deployment and production support.

PROFESSIONAL EXPERIENCE

CMS & Full Stack Developer - BetaGen Technologies | **Jul 2026 - Present**

- Build and maintain web solutions across Next.js/React applications and WordPress/CMS platforms, with a focus on responsive, production-ready implementation.
- Develop reusable frontend components from Figma using Next.js, React, TypeScript and Tailwind CSS, and support selected server-side functionality through Next.js API Routes.
- Develop the frontend for a confidential premium domain marketplace covering domain discovery, buy/leasing journeys, authenticated dashboards, orders, inquiries and account workflows.
- Implemented a modular feature-based frontend architecture and a centralized typed dashboard data layer designed for future backend integration without major UI restructuring.
- Customize ecommerce/CMS functionality, payment flows and third-party integrations, including Shopify/Liquid, WooCommerce gateways and CardPointe/Fiserv troubleshooting.
- Collaborate with the CTO through Git-based code review while also gathering client requirements, implementing revisions and performing QA before delivery.

Associate CMS Developer - Geeks of Kolachi | **Oct 2024 - Dec 2024**

- Delivered end-to-end CMS websites, including custom functionality, payment integrations and third-party tool integrations.
- Built custom WordPress shortcodes and implemented Figma designs as responsive, functional CMS websites.
- Maintained and debugged live websites while coordinating requirements and revisions with clients; delivered 10+ CMS projects.

WordPress Developer - Freelance / Self-Directed | **Jan 2025 - Jun 2026**

- Designed, developed and maintained 15+ WordPress websites across business, ecommerce and custom-functionality projects.
- Built custom themes, plugins and shortcodes using WooCommerce, Elementor, ACF and custom post types.
- Handled requirements, Figma-to-WordPress implementation, deployment/hosting, domains/DNS, payment integrations and post-launch maintenance.

WordPress Developer - Avancera Solutions | **Jul 2023 - Sep 2024**

- Built CMS websites from scratch and gained foundational experience in frontend implementation, HTML/CSS and real-world debugging.
- Collaborated with senior developers and received Employee of the Month recognition.

SELECTED PROJECTS

- **Tabarukat E Masomeen AS - Shopify Ecommerce Store** | Shopify, Liquid, JavaScript, CSS
  Customized a large-catalog Shopify storefront supporting 1,020+ products across multiple collections. Built reusable merchant-editable Liquid sections, responsive product and collection experiences, and storefront functionality including search, customer accounts, cart/checkout, wishlist, compare, sale pricing, WhatsApp support and newsletter capture.
- **Confidential Premium Domain Marketplace - Frontend Development** | Next.js 14, React, TypeScript, Tailwind CSS, Redux Toolkit, Zustand, Motion
  In-progress premium domain marketplace and customer dashboard covering domain discovery, buying/leasing journeys, orders, inquiries and account settings. Built reusable UI architecture, search/filter interactions, centralized typed data-access patterns and selected Next.js API functionality. Client and product identity withheld due to confidentiality.
- **Selected WordPress & WooCommerce Builds** | WordPress, WooCommerce, Elementor, ACF
  Developed and maintained production websites across ecommerce, healthcare, education, corporate technology and media, including Alpha International, Silverstein Songs, Triple Promise, Sherman Medical and Logiciel Services.
- **Custom Pricing Shortcode** | PHP, WordPress Shortcode API
  Built reusable pricing/content functionality that reduced repetitive manual editing and extended page-builder capabilities.
